Hi Aditya

Thanks for getting in contact earlier, I really appreciate it.

As discussed, please find the LOI attached. We've put together something that we think reflects the conversation we had and the opportunity we both see here.

The LOI covers a 1-year pilot engagement with German Shepherd. Inside you'll find a full breakdown of what we'll deliver. This includes building intelligence reports on your Nashik office, a complete picture of your physical risk footprint, from wireless exposure to corporate OSINT and infrastructure visibility, platform access for the full duration, and a clear path toward a formal commercial agreement once the pilot wraps.

We've also included a deliverables section for full transparency on exactly what you're getting and when. No ambiguity.

Have a read through at your own pace. If anything needs adjusting or you'd like to discuss it on a call, just say the word and we'll make it work.

We're excited about where this could go.

Best,
Team German Shepherd
